

PlaStakes

The Solution to Marker Damage in Your Garden

Do you have this problem with your plastic nameplates?

- **INCREASES LONGEVITY** Breakage is eliminated with the solid aluminum backer plate supporting your plastic nameplates. They won't fall off because they are tightly held with a solid layer of 3M tape designed to stick plastic to metal.
- **LOOKS GREAT** The plate comes already attached to our color fast black anodized stake. It has the Lark Sign safety point for easy insertion into your soil. The backer plate is smaller than your nameplate and will not be seen.
- **EASY TO USE** Just attach your plastic name plate to our PlaStake and put it out in the garden. We have done all the work. No metal cutting, bending or taping for you to do.
- **FOUR STANDARD SIZES** Our back plate is 1/4" smaller each side than your nameplate

TOTAL QUANTITY BEING ORDERED	1-499	500-999	1000+
3" x 2" (2 1/2" x 1 1/2" backer) mounted on a 1/2" x 20" stake	\$6.00 ea	\$5.60 ea	\$4.85 ea
